years
Success Story
of
ABC Dubash Group

BRIEF OVERVIEW OF ACTIVITIES OF ABC DUBASH GROUP

ABC DUBASH established since 1810 is one of India's oldest Maritime group. Today the group has a record of maritime services in the field of stevedoring, tug & barge operation, inland water transport, manning and much more catering to all Maritime onshore and offshore needs of the country. The concept of quality is acquiring greater importance in the service sector. The company equates quality with punctuality, safety, reliability, flexibility and speed, all performed with innovative flair. The group has, as its latest venture spread its tentacles to perform dredging and mining services.

We visualise our tradition, as a value ensuring continuity between the past and future. Only if the organisation has been guided for generations by future oriented, innovative ideas can it reach a stage at which it is able to look back on a 200 years old tradition. It is the duty of each active generation to implement strategic decisions, even

if these seem excessively revolutionary to its predecessors or insufficiently progressive to its successors. The incessant, practical commitment to innovation is the key to tradition within the group. This cardinal factor in the organisation spells our commitment towards our esteemed clients.

ABC DUBASH and their affiliated companies value the loyalty of every single customer. **ABC DUBASH** personnel are, especially proud of their many long standing clients. Asked for reason behind this loyalty **ABC DUBASH** customers mention the word "SERVICE TIME AND TIME AGAIN". The service provided must be more than just good - It must be outstanding. This constitutes a challenge and an obligation of every member of the **ABC DUBASH** team. **ABC DUBASH** personnel value and keep up to the exceptional high performance expected from the group with a proud history of 190 successful years.

The most important resource is our team of talented, loyal and dedicated personnel. We thank our personnel for our market position and excellent reputation. It is the responsibility of every team member to come up with a solution, so as to cater to our clients. At **ABC DUBASH** "Management by Objectives" has been a way of life much before it became a management jargon. It is our belief that once we employ an individual and provide him the means to achieve the objective all we have to do is to give him space required to achieve it. It has always been a practice at **ABC DUBASH** to put the individual's inherent creativity first. It is our employees who constitute the link between our esteemed clients and authorities, and use the latest technology and computing services to handle order processing, information and administration as efficiently as possible.

WHAT WE OFFER

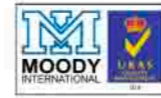

- Turnkey Project Transportation & Heavy lifting
- Containerized and break bulk cargo transportation
- Ship agency
- Ship Chartering
- Freight Forwarding
- Port Services & Customs Clearance
- Offshore services, Owners & Operators of barges, tugs & cranes
- Equipments Hiring – Barges, Tugs & Cranes.
- Bulk Cargo handling
- Stevedoring & management of captive ports
- Feasibility study for projects
- Dredging of Inland Waterways & Ports and Port Approaches
- Lighterage operations of Liquefied Ammonia.
- Warehousing and storage

Member of Federation of Freight Forwarders Association in India

URMILA is part of **Ardeshir B. Cursetjee & Sons Ltd.**, a premier company in the Maritime Sector established in 1810. Urmila as BRAND Name follows the traditions and reliability of the parent company which is nearly two centuries old.

URMILA was established in 1982 to provide specialised services in the Heavy Lift Sector. Urmila introduced the Concept of Hydraulic Trailers in India by importing the state of Art GOLDHOFER HYDRAULIC TRAILERS from Germany and today operates a fleet of 96 Goldhofer axles line and 24 axles line of Tratec, 17 Prime Movers, 6 Barges, 4 Tugs in addition to Ancillary equipment required for undertaking Heavy lift operations.

URMILA is focused on understanding the Clients requirements and meeting them with Innovative and Cost effective solutions. This approach has been our Hallmark and continually appreciated by the Clients.

URMILA has an enviable LIST OF CLIENTS both indigenous and Foreign who have appreciated Urmila's professional approach and the dedicated team of experts who are on its pay role.

URMILA has in-house expertise to undertake various aspects of the Heavy Lift projects and over the last 27 years has build up comprehensive systems/ procedures for undertaking difficult and challenging projects. Urmila is ISO certified company and has put tremendous value on SAFETY /HEALTH / ENVIRONMENT for undertaking Heavy lift operations. It has managed to maintain a ZERO level in the Accident Occurrence. Our Supervisory staff and operation crew are regularly trained in SAFETY PROCEEDURES which are laid down in the company's SAFETY MANUAL.

URMILA has traditionally maintained a very high level of SAFETY STANDARDS while undertaking Heavy Lift Operations all over India and is ISO 9001:2000 certified company.

MULTI-MODAL TRANSPORT

URMILA'S mission statement is " to be full service provider" in INDIAN MARKET for providing safe heavy lift and Multi-Modal Transport for Mega projects that are coming up and likely to come up in future.

URMILA has initiated to take steps to be ready in all respects to handle the super Heavy lifts that are being imported /constructed in India.

HUMAN RESOURCES

Employees are our key assets and we continually invest in their training in order to retain our competitive edge. We have created a productive environment, together with a strong sense of safety standards which form part of our training initiative.

We continue to build upon a solid foundation of a team of highly motivated professionals backed by a large spread of Heavy Lift Equipment.

MAJOR PROJECTS UNDERTAKEN

Urmila has undertaken difficult & challenging projects in the Power, Refinery & Fertilizer sectors by using highly innovative solutions backed by "State of Art" equipment & high level of expertise.

Reliance KGD6 Project

Floating Roll off of Teg Regeneration Skid having dimension 19.20m x 8.48m x 9.00m – 159 MT using 12+12 Goldhofer hydraulic axles through Yanam jetty for Reliance KGD6 Project at Kakinada.

Floating Roll off of Production Separator having dimension 13.04m x 5.60m x 5.65m – 192.4 MT.

Handling and Transportation of 3 nos. Umbilicals having 10 mtr height and weight of 301 MT

**MAJOR
PROJECTS
UNDERTAKEN**

Multimodal Transportation of Project Cargo For Siemens 1100 MW Sugan CCPP Project.

Comprising of Steel pontoons 10m X 3m X 3m & Steel Ramps As Shown In Photographs. Designed / Constructed / Owned By Urmila. Bridge Tested to 410 MT Load.

Generator 12.51m x 4.5m x 4.5m – 340 MT loaded on 20 nos Goldhofer hydraulic axles trailer.

Feed Water Tank having dimension 35.35m x 4.10m x 4.30m - 111.30 MT maneuvering at sharp curve for Essar's Mahan Power Project.

Turbine having dimension 10.93m x 5.20m x 4.86m - 310 MT loaded on 20 nos Goldhofer hydraulic axles trailer.

Opening up the National waterways : In eastern India we have the unique distinction of opening the navigation of barges on National waterway I from Haldia to Allahabad after a span of 55 years. Self-propelled barge transporting 400 tons package for IFFCO Aonla Fertilizer Project.

MAJOR PROJECTS UNDERTAKEN

URMILA has achieved another milestone by transporting longest package 59.2 m. long (194 ft.) X 4.8 m Dia. (Weight - 110 Tons) by road from G. R. Engineering Bangalore to CPCL Chennai

Transportation of Oxidation Reactor having dimension 12.62 X 9.03 X 9.19 = 250.2 MT

Remarkable transportation of highest package ever transported in India. URMILA has transported 2 nos. Calandria 10 mtr high and 85 MT from Walchandnagar Pune to Tarapur for Nuclear Power Corporation of India Ltd.

Generator Stator loaded on Goldhofer Girder Bridge.

Load out of 2 nos. 800 tons each offshore platform at Vishakhapatnam.

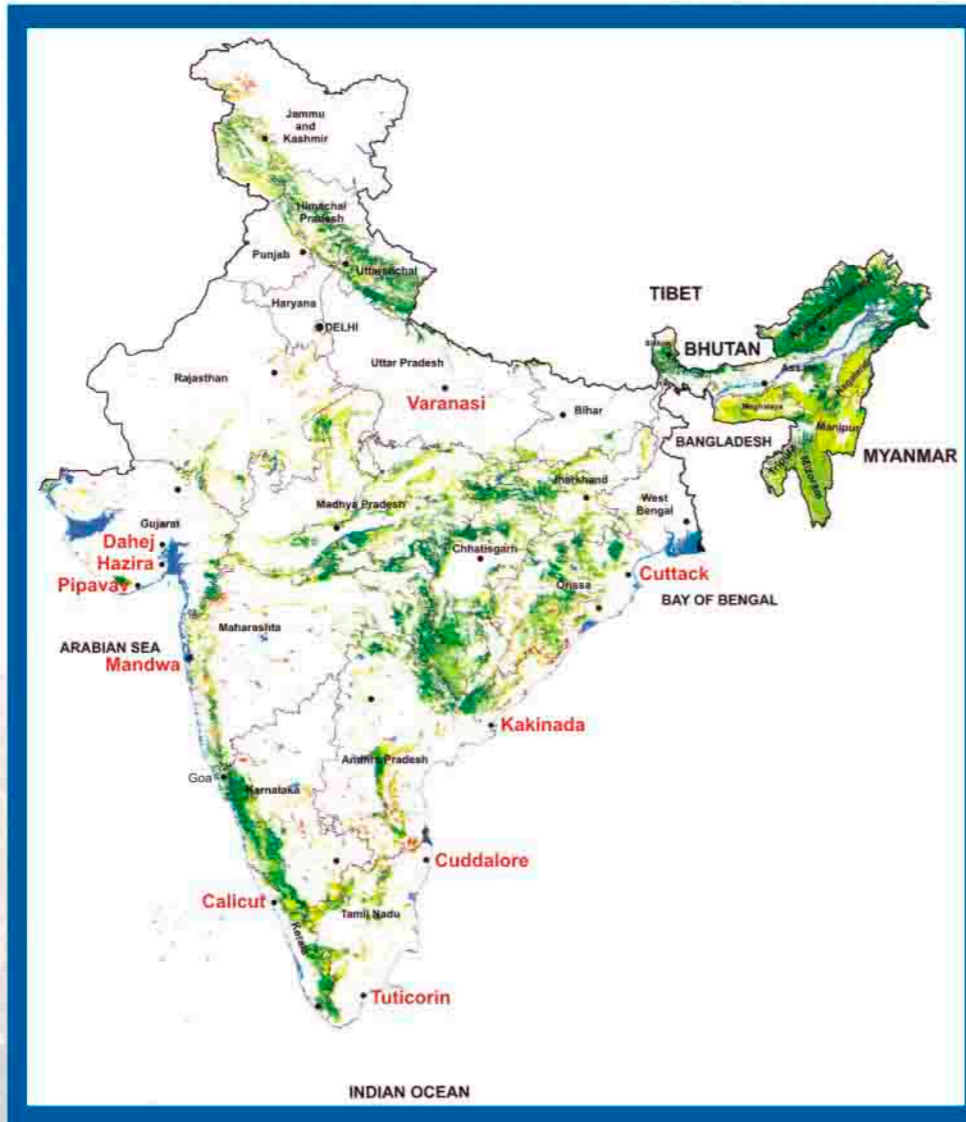

Small contribution to big project Precast segment weighting 150 tons loaded on hydraulic axles trailer for Bandra Worli Sea Link Project.

MULTIMODAL TRANSPORTATION FOR COASTAL & IMPORT CARGO

Urmila has constructed Ro-Ro jetties in all coastal states in India.

Urmila has designed and constructed Ro-Ro jetties at following locations for undertaking heavy lift discharge operations and has inhouse expertise for construction, maintenance and Ro-Ro operations

Sr. No.	Place	State	Project
1	Varanasi	Uttar Pradesh	For IFFCO Aonla Fertilizer project provided with 300 MT Manitowoc crane for unloading heavy lift and jetty constructed on river Ganga
2	Cuttack	Orissa	For NTPC Talcher Super Thermal Power Station
3	Kakinada port	Andhra Pradesh	For Nagarjuna Fertilizer Project
4	Yanam	Union Territory.	Modification of jetty for floating ro-ro operation.
5	Cuddalore	Tamilnadu	For Nagarjuna Oil Corporation Limited
6	Tuticorin	Tamilnadu	For Southern Petrochemical Corp. Project
7	Calicut port	Kerala	For Wartsila Kozhikode Power Project
8	Mandwa	Maharashtra	For RCF Thal Fertilizer Project
9	Dahej Port	Gujarat	For Siemens Paguthan Power Project
10	Hazira	Gujarat	For 1100 MW Sugen CCPP Gujarat Power Project
11	Pipavav	Gujarat	Re-commissioned the jetty for Pipavav Power Company Limited, A/c. BHEL

RAIL WAGON CLEARANCE AND LOADING OF HEAVYLIFT / ERECTION

Urmila has unique experience in handling heavy lift packages from rail wagon. Knowing our expertise Urmila has been called upon many times to clear the rail wagon and have handled many Generator Stators weighing upto 275 M. T. for BHEL.

Other Activities Of Group

LIGHTERAGE OPERATION BY ABC

We have 4 Specialized Self-propelled Bulk carriers to carry liquefied Ammonia at -33°C in pressurized tanks. These barges, designed in U. S. A, built in India / U. A. E. and equipped with computerized sophisticated instrumentation as per IMO and ABS Standards. We also provide specialized Barges for Bulk Chemicals, Bunkers and Oils to Petroleum and Industrial Companies.

DREDGING

Dredging is an expertise of the Group. During last 2 decades the company conducted maintenance dredging for Indian Navy in Kochi (Kerala), Kolaghat Thermal Power Station (West Bengal), Cochin Ship Yard in Kerala for Dhuvaran Thermal Power Station in Gujarat and MPPGCL Sarni in M. P. During the last 5 years company has executed over 6 million cubic meters of dredging. Our Group has also been awarded a contract by Madhya Pradesh Power Generating Company Limited (MPPGCL), Sarni for dredging, pumping out and handling of Fly Ash cargo w.e.f. June,09.

Dredging operation
on National waterways.

The West Bengal Power Development Corporation Limited

Maintaining desired channel to ensure steady supply of water through dredging of river Rupnarayan at Kolaghat Thermal Power Station.

BULK CARGO HANDLING

Our Group Company is working for Hindalco / Birla Copper of Birla Group Company at Dahej port in Gujarat state. The company engaged in vessel working and cargo handling operations since year 2001. During the last 8 years, we have handled over 18.3 Million Tons of Bulk Cargo such as Coal, Copper, Rock Phosphate, Copper Slag, Copper Cathode, Bore ore etc.

Similar type of cargo handling operation was done since 1998 at Revdanda, a minor port in Maharashtra where bulk cargo of Iron Ore, Iron Ore Pellets were handled. A quantity of 7.6 Million M. Tons were handled. It is worth mentioning here that the daily discharge rate was only 3500 M. Tons when ABC took over this operation and in due course of time ABC has raised daily discharge rate to 22000 M Tons for the minor port of M/s. Vikram Ispat of Revdanda, Salav.

In Gujarat for Reliance Industries at Jamnagar we are handling bulk cargo of pet coke since 3 years and have transported 0.9 Million M. Tons and delivered over 1.1 million M. Tons of coke.

Bulk cargo handling at Dahej and Rendanda Port
